

Dear Graduates:

Below are the procedures for you to follow if you are visiting at another university your last semester of law school.

You may have your picture taken at another studio but they will need to fulfill these requirements.

1. Backdrop will have to be neutral-a solid color-white or taken with a "green" screen backdrop.
2. The studio you select must provide us with a high resolution image of the picture you would like on the composite. The resolution should be 2 megapixels.
3. All that is needed is a head and shoulder shot - Call Photography will provide the studio with some direction. They would like to keep all head sizes the same.
4. The student needs to contact Call Photography, via email to get photography instructions and to track the student's progress [callphoto@chartermi.net](mailto:callphoto@chartermi.net). Please have the studio contact us 2-3 days prior to your sitting to provide ample time to provide the necessary information such as sample poses.
5. Deadline date for images to be received is April 1, 2010
6. Student should fill out or composite check in form to reserve a spot on the board.

Composite check-in Link
